Alastair Hadwen

Senior Product Manager — Health AI & Regulated B2B Products

Berlin, Germany (Permanent Resident) | +44 77706 57456 | Alastair.Hadwen@gmail.com
linkedin.com/in/alastair-hadwen-87b67b104 | https://ahadwen.github.io/Portfolio/

Product manager and former software engineer with 6+ years building regulated B2B products, including two years building for clinical teams at Trakcel (BioNTech, CRISPR Therapeutics). Most recently shipped AI agents that cut operator data entry from 12+ hours a week to near zero. 18 months as Acting Head of Product. MSc Computer Science.

SKILLS

Product: Roadmaps, discovery with specialist users, requirements and success metrics, prioritisation, go-to-market

AI: Claude Agent SDK, multi-agent systems, human review of AI output, Claude Code, Cursor

Technical: Former DevOps and fullstack engineer. Python, TypeScript, Java, SQL, APIs, AWS, Docker

Regulated domains: Clinical trials, insurance, EU carbon regulation, GDPR, access control

EXPERIENCE

Independent AI Projects *Jan 2026 – Present*

- **AI-assisted development:** *cut the cost of each code change*, by rebuilding an 8,000-line AI-generated game into small modules with Claude Code.
- **Agent workflows:** prototyping multi-agent handover with human review, using the Claude Agent SDK.

Senior Product Manager (sole PM), CEEZER GmbH *Aug 2025 – Jan 2026*

Climate Tech / Carbon Credit Marketplace

- **AI data extraction:** *cut operator data entry from 12+ hours a week to near zero*, by shipping two cross-checking AI agents that send any disagreement to a human.
- **Lufthansa deal:** *delivered a smooth go-live for a record multi-million-dollar deal*, by shipping a day-one MVP and deferring later features.
- **Operations tooling:** *made RFPs 60% faster*, by replacing the team's offline spreadsheets with tooling built around their workflow.
- **Customer validation:** *validated a new sales page with customers including Siemens before any engineering spend*, by prototyping it myself in Cursor.

Language & Personal Development Sabbatical *Feb 2025 – Aug 2025*

Passed the B1 German exam and Einbürgerungstest, then studied Arabic intensively in Jordan.

Senior Product Manager, Acting Head of Product, Alteos GmbH *Mar 2021 – Feb 2025*

B2B2C Insurtech / SaaS

- **Product leadership:** *grew the PM team from 3 to 7*, as Acting Head of Product for 18 months.
- **Product launches:** *grew insurance launches from 4 to 20+ a year with the same team*, by building self-serve configuration tooling for five departments.
- **Partner integrations:** *cut partner integration time by 60%*, by redesigning the API around a single endpoint per partner.
- **Sales strategy:** *shifted company focus from acquiring partners to activating them*, by showing in SQL that 10% of partners drove 90% of sales.
- **Engineering time:** *saved up to 6 weeks of engineering*, by serving a new market manually, then with Zapier, before building natively.

Product Owner, Trakcel Ltd *Feb 2019 – Mar 2021*
MedTech / Clinical Trial Supply Chain

- **Clinical launches:** *delivered 14 regulated launches for partners including BioNTech and CRISPR Therapeutics*, by designing the launch process.
- **Trial setup:** *cut setup time per clinical trial by 50%*, by turning bespoke setups into a low-code configuration product.
- **Data security:** *limited each user to the trial data they were authorised to see*, by implementing Okta SSO and role-based access.

Fullstack Java Engineer, Trakcel Ltd *Nov 2017 – Feb 2019*

DevOps Engineer, Admiral Group *Jan 2017 – Nov 2017*

EDUCATION

MSc Computer Science, Cardiff University *2016 – 2017*
BA Philosophy, Cardiff University *2011 – 2015*
